---

### SKILLS

**Front End Technologies:** HTML, CSS, JavaScript, Python, React, Redux-Saga, Bootstrap  
**Back End Technologies:** Node.js, Express.js, SQL, PostgreSQL, REST APIs, Java  
**Supporting Skills:** Git, GitHub, Passport Authentication, Docker, Postico, Redis, Heroku, Agile, JEST

### EDUCATIONAL & PROJECT EXPERIENCE

**Software Engineering Student – Prime Digital Academy** Jun 2023 – Dec 2023

- Immersive and accelerated Full Stack Engineering education program

**Interactive Hip-Hop Timeline – Full Stack Application** Jan 2025

- Designed and developed a mobile-friendly React app with a sleek Tailwind CSS interface, showcasing dynamic timelines of hip-hop artists' career highlights and milestones.
- Integrated OpenAI's GPT-3.5 API to generate engaging, real-time descriptions of major events such as album releases, awards, and iconic moments.
- Built a FastAPI backend in Python, leveraging OpenAI's GPT API for dynamic data generation and handling artist information efficiently.
- **Live Demo:** [hiphoptimeline.vercel.app](https://hiphoptimeline.vercel.app) | **GitHub Repo:** [github.com/Bles-t/hip-hop-timeline](https://github.com/Bles-t/hip-hop-timeline)

**Pokedex – Full Stack Application**

- Developed a scalable Pokedex app using Docker and Redis, with full user authentication and REST API integration
- Conducted JEST unit testing to ensure all components function correctly and maintain application reliability

**Mind Wisk – Full Stack Application** Dec 2023

- Designed and implemented database design, Axios integration, and routing for an e-commerce store focused on donations and distribution
- Collaborated consistently on an Agile team throughout the full design phase, using GitHub for version management and team-based pull request reviews

### PROFESSIONAL EXPERIENCE

**Delivery Driver – Amazon** Aug 2022 – Present

- Optimized routes using navigation tools to enhance operational efficiency
- Resolved customer issues swiftly as part of customer-first approach
- Managed multiple orders to ensure accurate fulfillment in face of complex logistics

**CSR 1 – Maximus** Jun 2018 – Jun 2022

- Provided exceptional customer support by answering inquiries about Medicaid eligibility, benefits, and enrollment processes, ensuring accurate and timely information for over 100 customers daily
- Demonstrated problem-solving skills by resolving complex issues related to Medicaid applications and coverage, utilizing internal resources.
- Maintained a high level of professionalism while handling confidential customer information, adhering to HIPAA regulations and consistently receiving positive feedback for excellent service quality..

### EDUCATION

**Prime Digital Academy** Dec 2023

Certificate in Full-Stack Software Engineering Minneapolis, MN
